<p>I would like to support this as a local resident and investor. I believe given the already larger commercial premises opposite the site this would offer opportunity for smaller businesses to thrive in the area. The design looks smart, well thought through whilst taking into consideration little impact on private residents. Access is already there, great transport links so very little disturbance to local roads. The current site is nearly in ruin and is not viable as a pub again so it is important it evolves ASAP. I would look to relocate one if not two of my businesses here moving from Rochdale &amp; Leeds and my business plan incorporates substantial investment and further employment opportunity for local people.</p>
