<p>Firstly Lindley moor is unrecognisable to what it was a decade ago. Secondly another application that is felling trees then planting saplings. This is absolutely unacceptable in the climate emergency and nature catastrophe we are now going through. Not only is it not clear in the application which trees are going and which are to be retained. The tree officers comments about T10 needs taking into consideration. He also mentions this application goes against LP 33 which I agree with. Felling a load of trees for an industrial development is so wrong and this application should not be passed. Save the trees Kirklees.</p>
