

I am happy to tell the planning application department more information about the Stephenson Builders yard which rented.

I didn't know there were any developers involved in the site until I was out walking and saw the Planning Notice paperwork on the lamp post, and I made a note of the application ref: 2023/93074.

I think it would make a good redevelopment site compared with all the New Homes being built in and around Honley , On what I would call Green Belt Land !
