I/we totally and wholly are against and oppose the change of use and separate dwelling planning application at 157 Penistone Road..... Having lived here for many decades, this is a quiet, well respected neighbourhood with virtually no trouble and a multi use dwelling/house for business purposes is certainly not in keeping or welcome within our neighbourhood..... Not only are we expecting more noise and possibly inconvenience in the area by way of more people who are not from the area but also more traffic and cars as the house will be used for commercial bed/letting purposes with multiple room occupancy..... The value of our properties will most definitely decline and not rise as they have been doing for decades and insurance in the area will increase..... So totally object this planning application and it should NOT be granted and I'm sure my/our neighbours share the same concerns...!!
