<p>This planning application makes no reference to the fact that the proposed development lies within close proximity and within full sight of a Grade 2 Listed Building. This application does not consider the negative effect the proposed development will have on this unique and ancient setting.</p> <p>The building is surrounded by green belt, agricultural land, public footpaths and borders on the Conservation Area of Little Gomersal. The complex design, appearance and layout of the proposed development would undoubtedly have a detrimental impact on the character of the wider surroundings, particularly as viewed when entering the village from the West.</p>
