<p>As a part owner and son of the occupants at 27 intake which is backed onto the application property of 1 green gardens, i whole heartedly object to the plans. The reason for this is due to the current garage never having planning agreement in place and was built without permission in a space not large enough for such a structure and which has overhang over my property at 27 intake. Should permission be granted for this we will seek to have an appeal. Furthermore light will be blocked from my property, water which is all ready a problem since the garage was illegally built will be an even bigger issue. The new structure will have no access to maintain the roof/guttering as the access which would be through my property which would be denied. Lastly this would not be in keeping with the area or other surrounding properties with less drive which will result in more cars on the road creating a dangerous situation on the corner of a busy junction next to a crossing near a school.</p>
