User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
Firstly I do not wish my postal identity or address or any reference in the text to my identity/address be published in line with GDPR. The planning permission proposed will have a significant effect on privacy as all windows for the proposed construction will be overlooking directly into my house/garden, which violates my privacy. It will also affect the sunlight being admitted into the garden. However, the main and upmost concern will be the privacy of being in my house/garden. I am stood in my house at the time of writing this objection and I can see clearly where the windows will be located for the construction and I already feel violated and I'm undergoing severe stress. Just thinking about how this will affect my privacy. I can provide pictures of where I am stood in my house and garden and how my privacy will be severely affected. It is already making me feel conscious about being in the house or having any of my windows open as they will be able to see directly into my house and into my garden.
