<p>Thank you for the consultation and I apologise for the late reply.</p> <p>The tree survey and arb impact assessment (ref: WC-266.1a) shows there is some encroachment into the RPAs of the retained trees by the development and because of the facilitation works to build the development.</p> <p>However, this encroachment can be resolved through the Tree Protection Plan (TPP) and a final AMS, based on the outline AMS within.</p> <p>There is no further objection to the proposal subject to a condition for a finalised AMS be reviewed by the Project Arboriculturalist prior to the commencement of development works.</p>
