

Appendix A – Climate Change Statement

Climate Change Statement for Planning Applications

Part 1: Applicant details

Name of applicant/agent	SHAHIDA BEGUM
Site Address	14 MALVERN RISE PRIMROSE HILL HUNDSFIELD HD4 6DG
Description of Development	ERECTION OF GROUND FLOOR EXTENSION

Part 2: Climate Change Mitigation measures

Please respond to the following questions considering the measures set out in the Climate Change Guidance note:
Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)
CAREFUL ATTENTION WILL BE PAID TO ENSURING A HIGH LEVEL OF INSULATION AND DRAUGHT-PROOFING.
Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3)
MATERIALS WILL BE RE-USED AS FAR AS POSSIBLE AND SO WILL NEW MATERIALS BE SOURCED LOCALLY.
Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)

WHERE POSSIBLE LOW CARBON ENERGY SOURCES WILL BE USED

Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5)

SEE ANSWER TO QUESTION 1. ABOVE.

Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)

THERE IS NO THREAT OF FLOODING GIVEN THE NATURE OF THE SITE AND SURROUNDINGS

Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)

AS AN EXTENSION TO AN EXISTING PROPERTY, NONE APPLICABLE.

Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)

NONE AS THE SITE IS AN EXISTING PLATFORM.

Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)

NO AIR POLLUTION IS EXPECTED TO BE GENERATED
