The planning application for the site 2023/60/93503/W will cause a major increase in traffic and noise. The main Meltham road that goes through Netherton is far to busy and adding another housing estate will increase the pressure on the road and the surrounding streets which are already stretched. The parking in Netherton village is already an issue with illegal parking too close to the traffic lights on Meltham road all ready a daily occurrence. The lose of greenery and the effect on local animals with be devastating. It's a small village and has already had a large housing estate built and the village cannot cope with another development. The village has woods and fields and so much character that make it a pleasant place to live and walk, why ruin it.
