<p>I object to this proposal as there are already too many private property developments that have clogged and scarred the already-under-threat environment that we all are privileged to be able to enjoy on a daily basis. Another large development will remove even more natural green space, and in this case, would destroy an area hat is important for sustaining a balance between nature and human impact. This area is widely enjoyed by existing residents who love, value and respect the area. The destruction of plant and animal habitat should absolutely not be prioritised and consented in order for a small amount of people to make money. It is morally irresponsible and exactly what is threatening our unique and naturally outstanding place we all call home.</p> <p>With road traffic and parking issues occurring on a daily basis around the valley from the local residents, commuters passing through and tourists, another large development will only add to the problem. A problem the council are already trying to address and develop a solution to. It would be counterintuitive to consent for something that residence and workers of the valley know would add to an existing issue.</p>
