Town and Country Planning Act 1990

Town and Country Planning (Development Management Procedure) (England) Order
2015

REFUSAL OF PERMISSION FOR DEVELOPMENT

Application Number: 2023/62/93513/E

In pursuance of its powers under the above-mentioned Act and Order the KIRKLEES COUNCIL (hereinafter called "The Council") as Local Planning Authority hereby refuses to permit:-

ERECTION OF REAR EXTENSION AND ASSOCIATED ALTERATIONS

At: 191, HIGH STREET, HANGING HEATON, BATLEY, WF17 6DP

In accordance with the plan(s) and applications submitted to the Council on 21-Dec-2023, except as amended or specified, details of which can be found in the table below. The reasons for the Council's decision to refuse permission for the development are:

The proposed extension, due to scale, mass and form would appear discordant, overly prominent and domineering to the host dwelling, appearing incongruous and overdeveloping the site. The proposal would fail to respect the character of the host dwelling and would be read as a discordant and disproportionate feature within the wider area. The proposal fails to meet Kirklees Local Plan Policy LP24 in terms of the character of the host property and the criteria of the House Extension Supplementary Planning Document, particularly Key Design Principle 1 & 2 in terms of impact on the character of the area and the original house.

No alterations were required due to the scale of alterations required being out of the scope of the application.

Digital Infrastructure: Fibre To The Property (FTTP)

Access to affordable and reliable broadband is necessary for Kirklees' residents, businesses, and visitors to take advantage of the growing digital economy and 'digital by default' services. Fibre optic cables direct to a property (FTTP) is the most reliable way of delivering high speed broadband connectivity and allows for gigabit internet speeds. Access to high quality digital infrastructure provides the foundations for, amongst other things:

- Economic prosperity – workforces that are digitally-literate enables business to thrive.
- Digital literacy – digital literacy and skills increase employability and people can exploit the internet for transactional, social, entertainment and learning purposes.
- New services – digital delivery can lower costs and provide innovative public and health services more conveniently.

It is therefore advised that digital infrastructure, including FTTP, and its benefits for the development be considered from the earliest feasible stage. Methods include working with Internet Service Providers to install digital infrastructure alongside other utilities or providing pre-infrastructure allowing for speedier installation at a later date.

To discuss the benefits that FTTP may have for your development, please contact Carl Tinson in Kirklees Council's Digital Team at carl.tinson@kirklees.gov.uk

Note: The provision of fibre infrastructure is often available from certain telecommunications providers free of charge for development over a certain scale, provided that sufficient notice is given. Notice periods are typically at least 12 months prior to first occupation. In some cases, providers may request a contribution from the developer.

Note: Where no telecommunications provider has been secured to provide fibre infrastructure by the time of highway construction, it is advised that additional dedicated telecommunications ducting is incorporated alongside other utilities to enable the efficient and cost effective provision of fibre infrastructure in the future.

Appeals to the Secretary of State

- If you are aggrieved by the decision of your Local Planning Authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.
- As this is a decision for a householder application, if you want to appeal against your Local Planning Authority's decision then you must do so within 12 weeks of the date of this notice.
- If an enforcement notice is served or has been served relating to the same or substantially the same land and development as in your application and if you want to appeal against the local planning authority's decision on your application, then you must do so within:
 - i) 28 days from the date of this notice where the enforcement notice has been served,
 - ii) 28 days of the date of service of the enforcement notice or,
 - iii) 12 weeks of the date of this notice,which ever period expires earliest.
- Appeals must be made using a form which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN (Tel: 0303 444 5000) or online at [the Planning Inspectorates Website](#) . Further information on the Planning Appeal process can be found online at [the Planning Inspectorates website](#).
- You must use the correct Planning Appeal Form when making your appeal. If requesting forms from the Planning Inspectorate, please state the type of application that the appeal relates to so they can send you the appeal form you require.
- The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to him that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
- In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based their decision on a direction given by him.

Please note, only the applicant possesses the right of appeal.
