<p>I object to the proposed plan because I feel it will be an eyesore being so close to the road and opposite properties. I believe it could have a negative impact on property prices, it will increase traffic on an already busy road and cause further congestion, which is already an issue at certain times of the day due to large lorries waiting to turn into or exit JTD. They have already constructed huge storage facilities directly opposite my property which has had a detrimental impact on my view of the woods and I feel this structure could have been put to the rear of the site, so as to have less negative impact on me.</p> <p>I wholeheartedly oppose this planning application.</p>
