<p>Whilst I appreciate the need for new housing I agree with others that the building of these new apartments will adversely impact those residents whose homes face towards the proposed site. They will have less light and less privacy. Traffic will increase on the already busy narrow surrounding roads. Should planning be approved then Binks developers should reduce the height of the building. Both they and Kirklees Council must ensure that flood risk is mitigated and that the health and safety of the public is paramount. It is also imperative that Binks actually includes green spaces including trees and shrubs to enhance the wellbeing of residents, something they haven't done well enough to date.</p>
