<p>I appreciate the need for affordable accommodation, however as a long term tenant I do not agree with the plans to build on the land in question. Over the years i have lived here I have seen many floods leading to damage of our property which are still awaiting restoration a new development so close is only going to make this worse not to mention the effect this will have on new tenants unfamiliar with the area. Our local schools and health centres are also at full capacity and struggling with the demand they are in. Not to mention the noise and disruption that this will cause during construction for residents and local neighbours. While disturbing wildlife and beautiful scenery at the same time for existing residents I also worry about our privacy having other larger buildings so close to our windows.</p>
