<p>This new build you're planning on the grounds of an already built old textile mill. Nothing has changed, the wildlife still lives there, the access you're requiring is still enlarged or changed, the upheaval and disturbance to residents already living in this quiet corner of Mirfield will have no end of disruption what with plant gear moving about and earth worms being removed as well as other deliveries you'll need on a daily basis. The amount of room you need to create such a big infact view blocking, nature destructive area is bewildering let alone a disgusting and saddening move/act of company greed without a care for residents here or like I said the wildlife that live round here.</p> <p>What you're planning on doing is not going to make anybody's life any easier who live here, I dare say you don't even care as long as you get a 6 storey block of flats built up, taking most of a small car park up as it is, you're going to put muck and debris all over this small entrance to our homes as well as the car park for near on 12 months if not more. You're going to disrupt night workers sleep patterns, you're going create nothing but a massive headache for people living here and I seriously doubt you even care.</p> <p>This job was once cancelled and I'd love to know why!?! If it was cancelled back then then why has it been given the go ahead now !?!</p> <p>There's nothing in place with regards to compensation to residents living at Ledgard bridge mill, there's nothing to suggest you have us in mind what so ever.</p> <p>I personally think it's a greedy destructive nature killing thing you're about to do, just wish you people in offices and in powerful seats would do the building on your own doorstep instead of ours and seeing as you never finished Ledgard bridge mill off properly in the first place leaves me in no doubt that this 6 story block of distruction is going to end up the same way.</p> <p>Built with cheap products, unfinished, with no care other than throwing bits and pieces together to gain maximum profits!!!!</p>
