<p>My objective comments are: The proposed build will not fit in with the original environment. Design, appearance and layout will have an immense impact on the character of the area...my area. There has been five other builds similar to this proposed build in close proximity of my house, all leaving the grass verges in sheer mud with multiple cars being parked outside the property's, day and night making a Dangerous impact on highway safety.The build will definitely have an effect on sunlight, daylight and privacy over neighbouring properties. Just on the amount of granted permitted Bungalows being demolished AND large houses then appearing in this area has changed the character of this area in the last three years with not a thought to the people that live here....I think there should be a consultation of the people that live here before any more permitted developments go ahead.</p>
