CHANGE OF VIEW

Here I have acquired images of a toilet block (below writing), this to me looks like the garage that is going to be built. Suggestion for the building, change the window placement to something more visually pleasing rather than a box with small windows looking like its got toilets inside. We are losing quite a bit of our view and something more pleasing to look at would be appreciated.

We hope there is sufficient parking in the garage and drive because there will be nowhere to park on the road as it is a junction.

It is a very busy road with many schools in the area with a high traffic volume at certain times in the day and the speed of some vehicles is excessive. Our house was built before the car was invented so unfortunately we have to park on the road in front of our house.

Thanks, , at 4 Beaumont Park Road.
