<p>The extensions to the building to the building will undoubtedly cause further disruption to traffic congestion already on the road; particularly so at festival times . Parking for the mosque does not just affect High street but the surrounding streets as well. Middle road which is adjacent to the Mosque is inevitably blocked at pray and education class times at either side of its entrance/ exit which in itself contravenes the traffic and highways act in that safe access in and out of that road is being prevented. Buses and wagons regularly have problems as it is with the amount of inconsiderate / illegal and double parking.</p> <p>The building is continually attracting more traffic to the road and the expanding of the building will only serve to axacerbate what is already a dangerous situation.</p>
