<p>Dear Sir / Madam,</p> <p>The current plan severely restricts the view of the property directly opposite and does not look like it has been drawn up appropriately this seems to have no thought of anybody who lives in the area as this completely disregards the privacy and well been of neighbours opposite obviously not taken into consideration and as I thought it was a conservation area and this will likely cause further issues down the line as this would mean the people in the property have a direct view into the opposite property at any time which is dangerous and offensive to current occupiers in other properties. also according to this can look into Childs bedrooms of neighbour at number 2 Banks Avenue which again is dangerous and offensive to the other occupiers.</p> <p>Regards,</p>
