

**Consultation Response from KC,
Education**

**2023/93667 Storthes Hall Student Village, Storthes Hall Lane, Kirkburton, Huddersfield, HD8
0WA**

**Outline application for demolition of buildings and erection of residential development (up to
261 dwellings), redevelopment of Lodge Cottage for residential use and associated works**

Date Responded:

Responding Officer:

Responding Ref:

Please note, this calculation is for the full 261 dwellings; it also assumes all dwellings would be 2+ bed units. If there are any variations to this, the amount could change.

As and when any further application comes forward, a new calculation would be run, based on any updated projections that may be available at the time.

Notes									
Projected numbers forecast for 2025/26									
The sixth form contributes the equivalent of 0.70 full years									
The Department for Education expects the capacity of an academy to be based on what is recorded in the school's funding agreement.									
Capacity figure for Shelley College is the last known net capacity figure, as this is the closest match to current operating style.									
Section 106 education contributions are calculated upon priority admission area schools in accordance with the Kirklees policy. It is not always possible to expand the places of the specified schools to meet the impact of additional demand generated by the development for a number of reasons including but not limited to; the value of the contribution is too small to be practically used on its own to expand places, site specifics make expansion impractical at some schools and adding numbers of places outside sustainable school delivery models is also impractical (e.g. class size legislation). Contributions from more than one development may need to be joined together to provide effective mitigation of the impact of more than one development. For this reason, contributions are required to be used in the geographical vicinity of a development rather than specified to individual schools.
