I object to this planning application because of the loss of trees. Going through the application it is not clear how many trees are going to be felled. It should be in black and white a clear number. It's like the company doesn't want the public to know the massive loss of trees. Kirklees council has many points in the local plan that protect trees. This application goes against all these. Trees are essential for the fight against the climate emergency and the ecological emergency. Trees are home to thousands of animals,birds, insects, mosses, fungi etc. Trees are essential and cut down in such large numbers in one area will be devastating. If this company wants to build here leave the trees alone and build on the hard standing. Save the trees Kirklees.
