Having read the proposed changes to the plans, I no longer support this development for the following reasons:  1) The proposed changes to the junction of Storthes Hall Lane and Penistone road are wholly inadequate. 2) The destruction of Little North Spring wood is unacceptable. This area of category A trees contains many mature oak and beech trees and is valuable wildlife habitat. The developers should build on the plantation woodland of little value on the left of the site entrance instead. 3) While I welcome the retention of the reception building, removal of the Venue is regrettable. This would make a valuable community space and is a beautiful old building. It should be retained and used for commercial space which is sorely needed in the area. 4) Lack of car parking for sports pitches. Removal of current parking will adversely affect both the current residents of Storthes Hall Lane and the new residents of Storthes Hall Park.
