I fully support the application for the building of 10 quality bungalows. It was a very pleasant surprise to hear that the developers are planning to build bungalows instead of houses like all other builders. They will blend well into this rural village. Grange Moor is a small, quiet country village with narrow roads, very few pavements and a lot of street parking. Denby Lane is a narrow road which some drivers use as a race track. Judging by the amount of traffic that goes up and down this road it is also used by the residents of Briestfield and Whitley as a shortcut to get to Wakefield Road and the M1 motorway. Besides residents we also get a lot of cars being parked by people coming to walk in our beautiful surrounding countryside. In spring and summer we get a lot of farm machinery coming up and down the road. A big advantage will be that these bungalows will be having off-street parking so should not increase the problems we already have.
