Subject: 2023/93704-land northwest of,urban Denby lane

Dear sir,

I understand that kirklees need more housing but to try and squeeze five more social housing is not acceptable .We are a rural village with very little infrastructure. we have a shop a garage and an hairdresser a small school which is just managing to cope with the village .we have a church which is used .we don't have a good enough bus service to either wakefield or huddersfield .we don't have access to a local doctors without having to go into middlestown if you don't have a car you have to walk 20 mins to catch the bus that is if it turns up .if you build these houses where are they going to put the cars the road on denby lane is full already and by you wanting to expand this lovely village is going to cause chaos with the wagons that will be needed to build and and bring in deliveries.we don't have anything in place for our young people if they have to go to groups it is out of the area .by you wanting to put more houses on denby lane you are spoiling a tranquil village we don't need to be a town i was brought up in grangemoor so was my mother and my grandparents .if we wanted to live in a town area i would move .yorkshire country properties are doing what is best for the village by building bungalows and having off road parking .please keep our village like we have now Grange Moor is known for its rural character and by you wanting more housing is going to spoil the character of this part of Grange Moor
