<p>On behalf of Huddersfield civic society :- Firstly we fully support the principle of a conversion suited to living accommodation. However we note a distinct lack of detail knowing this is a building of significant historic interest and sits within the conservation area. The existing trees are omitted from location/site ground plans given that the land sits within the local conservation area and all those trees will have a protection order. Possibly insufficient parking spaces for 11 apartments and we possibly would question the statement "No significant impact" given the alterations to doors and skylights. A Heritage assessment may be required.</p>
