<p>In relation to the proposed development.</p> <p>This will have an adverse effect on the natural environment. There will be no main sewage. There is already an issue in respect of Utility Services in the area. The land drainage is already at a critical stage causing flooding on the road.</p> <p>Over the years a number of planning applications have been rejected for the development of 2 properties in a disused car park area which is directly adjacent to this proposed development which is in a field.</p> <p>There are huge implications in respect of Traffic management and Highways Safety as the access to this site would be on Chain Rd, a 60mph road . The speed limit on the Road would have to be reduced to 30 or 40mph which has been an ongoing debate with the Local Authority and Local Councillors for many years.</p> <p>I would like my concerns to be taken into account .</p>
