<p>My children attend holly tree nursery further down the road from the garage . There is restricted parking across the garage due to marked yellow lines so all their customers park opposite the children's nursery making it impossible for parents to safely drop and collect their children . There is never parking for the nursery as a result of the garage . A lot of the garage customers speed up the road sometimes making it very dangerous while dropping the children as toddlers tend to run around. The parking should be for nursery clients as it is the stretch of road directly opposite holly tree nursery . Sometimes some of the garage clients park their cars opposite the nursery for days restricting access for the school drop off van .if there is ever an emergency , there will be serious hindrance for emergency vehicles to access the nursery and I feel it is a health and safety hazard . Every day is an accident waiting to happen.</p> <p>Kind regards</p>
