<p>This garage has made an area even worse than it already was.</p> <p>Cutting down hedges and trees that belong to the council and making a mess just attracts vermin. There's everything from household waste to garden waste just thrown at the side of the building.</p> <p>They also have fires during the day burning all kinds of things. Even have an open fire inside. God knows what would happen if the building went up into flames. I live 2 streets away and can smell it and see the smoke.</p> <p>It's not so much parking for me as I walk to the nursery but the danger it puts us in walking to and from the nursery.</p> <p>Having to walk on the road. Due to the garage blocking the pavement. Also Avoiding glass, nails, screws etc the whole area needs a good tidy up. Why has no one been to check what this company has done. The pictures on the planning don't show the other side where this garage has thrown all there stuff.</p> <p>And they think it's acceptable all because they have bought a house.</p> <p>If it was anyone else they would have been shut down months ago.</p> <p>Who knows what stuff they're doing. If they're insured etc.</p> <p>there operating out of there opening hours. Either too early or too late.</p> <p>It shouldn't be passed and should be ordered to knock the dot on the land down and let the council build some much needed social housing on the site!!!</p>
