<p>The building is suppose to be a storage unit, they have been running it as a garage from the 18th August 2023 as they had cars on the ramp, and down the street, also, the sign went up on the 21st August saying they were going to open 7 days a week. Also, I have not seen planning notification go up on George street to tell the community about the planned changes from storage to a Garage.</p> <p>They have cut down trees and burnt them inside the Garage, to keep warm, they have had Kirklees council come down to clean waste away.</p> <p>They have been fixing vehicles in the middle of George Street, which blocks the road and makes it difficult for access to the nursery and when asked to move they do become a aggressive and we have had the police out to them over this behaviour.</p> <p>On occasion there is a odour in the environment around us from the chemicals being used.</p> <p>Also my other concern is they say there will be rubbish, but the Garage will have empty containers of chemicals and other car parts that they repair, my question is where will these be disposed of as I see no bins associated with the Garage.</p> <p>They are stacking tires in the garden where they have bought and with no consideration to the local community at how untidy it will look.</p>
