<p>I have read some of the supporting comments and clearly they know the people as they have done business for a day with them.</p> <p>A day in a year or month is not seeing the impact on the street and community around the a garage daily and the knock on effect it is having with George street.</p> <p>I have seen the garage approach parents of the nursery either arriving or leaving and some parents have felt they have been intimidated.</p> <p>Also reading there plan for the climate change, they are going to have fire alarms put in place. This is very worrying as if there is a fire now what measures are in place now for alerting the community of danger.</p> <p>Also they have a wood burning fire with in the garage so they do produce a little pollution.</p>
