<p>I have been a customer of garage a number of times since they opened in the summer.</p> <p>I was told I could park anywhere including the council land next to the garage. The garage themselves double park cars in both sides of the road and this has caused a big problem</p> <p>George street is a residential street but due to cars from the garage now being parked in back gardens and on council land it looks like a dumping ground. The whole appearance of the street has been affected aswell as environment being polluted by broken or damaged pieces of vehicles left on the road.</p> <p>The garage have caused a danger to the pedestrians and vehicles with broken glass left on pavements and the road. The garage development is not in line with the local area, surplus cars and even working on cars overflows on to the road. The area is too small for a garage and has been disturbing local businesses already.</p> <p>It is very damaging for the local community to see a business which is operating illegally to then apply for planning permission retrospectively in order to attempt to manipulate trading regulations.</p>
