<p>The garage has been running illegally without planning permission. Closure 8 stated that the unit could only be used as a storage unit. We don't need any motor garages as there are lots nearby. This garage is continuously disturbing me with loud banging noises. I can't read or pray in peace. I get distracted with these noises. My parents are old and are having trouble sleeping. I have young children, and have noticed the increase in people coming in and out of this street due to this garage. I feel it is unsafe for my children to be out on the street due to lots of people coming to this garage and waiting around. I cannot believe that a planing permission is being considered as there is a nursery nearby to this garage, nursery children are having to walk on road due to this garage, customers waiting around the street, I believe it is a safeguarding concern and planning should be refused. We don't need a motor mechanic garage we need a nursery nearby.</p> <p>Extra council land has also been taken by this motor mechanic garage, without permission. They have levelled it, cut shrubs taken of their boundary fence and put hardcore. They have mischievous intentions to occupy this council land. the planning drawings are incorrect, the metal fence is showing incorrectly.</p>
