<p>The garage is now requesting planning permission only because they have been told to close due to them operating illegally for nearly a year.</p> <p>The local environment has been greatly impacted due to broken glass, nuts, bolts, rubber and large items from damaged cars. The garage has made no attempt to clean up after themselves.</p> <p>Many trees and bushes have been cut down affecting local wildlife. The street looks like a back alley due to cars being parked in back gardens, on pavements and garage workers fixing cars on the street.</p> <p>George street is a residential street with a nursery attended by many local children, it is not appropriate for a garage to operate occupying the whole area with abandon cars.</p> <p>The dvla recently clamped and even towed away a number of cars from the street, the remaining cars which were clamped had these illegally removed by the garage and miraculously the cars were finally moved.</p> <p>The garage has made it very difficult for local residents and parents whose children attend the nursery. Children are being put in danger by having to walk on the road and past vast amounts of rubbish.</p>
