<p>I understand the need for security of the school, I understand the need for the tall fence to protect properties from footballs. I don't understand the need to have cut down those trees that created a habitat for wildlife.</p> <p>Also the field is accessible for families and children to use out of school hours providing much needed safe space for people to exercise. For children to meet and socialise. There are always people using the field for activities. The fence will also affect the outlook of the area. The school already has a security fence in place, if this is failing then this fence should be made more secure. The field is a great asset to the local community.</p>
