Ecology Unit**

2023/93782 14, Firth Street, Huddersfield, HD1 3BA

Erection of extensions and alterations to form 16 student apartments

Date Responded: 21/03/2024

Responding Officer: Gareth Hey

Responding Ref:

A bat roost assessment has been assessed as providing features with low bat roost suitability. In line with guidance, a single nocturnal survey is recommended to ascertain the status of roosting. This should be carried out during the active bat survey season (May-August).

Prior to determination, the above information should be provided in a report suitable for planning purposes. Once the information has been submitted KC Ecology should be consulted.
