Objecting against the building opposite Omar street a residential street - that has had to put up with noise of drilling, alarms and shouting from the people working on the site opposite it is already really loud with swearing of workers and we can't have our windows open in summer due to the noise. As it seems the company has already made the building without the permission - this is the type of business the street is having to put up with. The building is an eyesore and I can see the house prices decreasing. How can a business get a way with building without permission and so many objections.
