Dear Sir/Madam

I wish to raise my objections and concerns regarding the application for 6 apartments on the site of the former Liberal Club in Kirkheaton The proposal is for 6 units with the possibility of 12 plus vehicles requiring parking spaces the application state's only 6/7.

The property is situated on a staggered junction with poor visibility to the oncoming traffic due to current levels of residential parking The property is on the main route for the local primary school and is heavily congested with traffic around those times. Making it difficult for students and parents to navigate the junction safely.

There are a high number of sensory impaired residents within 20-30 feet of the development, the amount of noise disturbance and contractors parking on pavements and in the adjacent streets will provide a significant loss in safety and quality of life for those already experiencing challenges.

Kind regards
