Part 2: Climate Change Mitigation measures

Please respond to the following questions considering the measures set out in the Climate Change Guidance note:
Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)
The installation of energy efficient LED lighting will help minimize energy use
Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3)
Locally sourced materials will be used where appropriate to minimize the carbon footprint of the development
Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)

Green energy suppliers will be used where possible
Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5)
Building layout has been designed within site constraints
Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)
N/A
Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)
N/A
Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)
External spaces to have sufficient planting to provide biodiversity gains
Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)
N/A
