

Appendix A – Climate Change Statement

Climate Change Statement for Planning Applications

Part 1: Applicant details

Name of applicant/agent	Mr & Mrs Walshaw
Site Address	The coach house, netherton fold, Netherton, HD4 7HB
Description of Development	replacement windows and doors

Part 2: Climate Change Mitigation measures

Please respond to the following questions considering the measures set out in the Climate Change Guidance note:
Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)
the application is to replace old windows and doors for more thermal efficient aluminium units and glazing
Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3)
windows and doors sourced from a local window firm in huddersfield.
Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)

n/a

Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5)

all windows and doors will meet the standard required for Part L.

Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)

n/a

Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)

n/a

Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)

n/a

Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)

A wood burning stove has been asked for by the client and will use renewable smokeless fuel.
