Subject: Planning application 2024/90058 Penistone road

CAUTION: External email. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Sir

I have seen the planning application proposed plan for this development, I am concerned about the number of houses proposed, to exit on to a new roundabout at the junction with Rowley Lane, together with the new development taking place now just to the Huddersfield side of Rowley Lane this will put too much traffic onto Penistone Road Further I see from the plan that it is proposed to take a new road round the development and then through the old railway embankment into the field beyond with the intention of continuing development into this area, given the amount of traffic already on Penistone Road now, the on going development taking place now, and this proposed development, further building beyond the railway embankment with access into Penistone Road should be refused absolutely Sent from my iPad
