Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
The proposed plans will have a detrimental impact on resident parking on ridings lane. The double wide entrance to the parking area, plus the passing place will mean significantly less area for street parking. This area is already very congested with parked vehicles, so having considerably less availability will cause a lot of knock on problems, with residents not able to find any space to park. The area of development also contains trees which are used by owls, losing the trees will mean losing the owls, which are currently greatly enjoyed by the residents. The modern design of the dwelling is also not in keeping with the area's Victorian architecture.
