The detaches dwelling would result in our view being compromised and we would in effect be looking at a brick wall. The building of this property would have an adverse effect on the wildlife that visit our garden. We have fed the birds and other wildlife for over 20 years while enjoying our garden. The planning dept would have passed for a house of this nature to be built when the original houses were built. This planning application has been turned down on two occasions in 2010 nothing has changed since then. We/I feel strongly about this planning application and it is totally unacceptable to imagine that any of the surrounding residents could possibly agree to this. The daylight in our garden would also be compromised taking all the sun away from our garden.
