Good morning Alison,

I have recently surveyed a 33KV power line running through Honley for any trees which require pruning to maintain a safe clearance from the overheads, on behalf of Northern Powergrid.

At 2 Magdale, Honley, there is a Sycamore in poor health with one stem, of two, with the crown totally dead. Due to the proximity of this to the OHL, I am requesting your permission to remove both stems to below the height of the line to prevent it from falling on the line in the future. I have spoken with Gillian Jones at number 2 and she is happy for the work to be carried out.

The Sycamore is included in TPO 18/78/W1 and Honley conservation area. I have included a photo of the Sycamore and a screen shot of the site on the Kirklees interactive map.

As the work is urgent I look forward to hearing from you ASAP. Thank you for your time.

Kind regards,

Richard Edwards
