Good Morning,

We are due to carry out emergency tree works at the following address:

The Huddersfield Hospital,
Birkby Hall Road,
Huddersfield,
HD2 2BL

Please see below scope of works:

We have had an emergency call to state a Mature Lombardy Poplar that has failed at Huddersfield Hospital, over the weekend the tree has dropped a large limb onto the main road that runs adjacent with the hospital, upon inspection the tree has a large cavity and fungal growth on the main stem, the bark is that soft that I could push my finger into the tree up to my knuckles, with this in mind I would suggest that we get the tree felled as a matter of urgency before the remainder of the tree fails and causes damage or maybe worse.

Please see the plan of the location of the tree (on the pictures it's the one with the wooden fence surrounding), we have a team that has been actioned to remove the large limb from the road and make the area safe. Please advise would you be happy for the tree to be felled given the above scope of works by our contract Manager?

Please note we will only be carrying out work to make the area safe, until we hear back from you about felling the tree.

Thank you for your time.

Kind Regards,
Helen

Helen Gardner
Tree Coordinator
