KEY

Green identifies original exterior of property.

Red identifies current existing structure outline.

Blue identifies planned structure outline.

15 Bywell Road, Dewsbury,
WF12 7JT

Planned works to replace existing glazed, timber structure with plastic roof for a glazed, brick structure with solid roof.

The addition of central heating will allow the area to be used all year round as a family living space. There is also going to be the addition of a WC.

Work will be carried out by J.Brentnall Construction and is estimated to commence 12/2/2024.
