Hi

Prow would like further information on this application

Public footpath Huddersfield 139 is adjacent to the site and the extension is very large and appear to be proposed directly up to the path. What is the gap between the footpath and the extension. It also appears to show an overhang is proposed, is this all within the RLB and the ownership?

What is the height of the extension adjacent to the footpath and will all construction be within the boundary of the property?

If consent is granted please add the following footnote

FOOTNOTE Public footpath Huddersfield 139 is adjacent to the site and must not be interfered with or obstructed, prior to, during or after development works
