<p>The previous application from the owner was rejected and refused at appeal. Nothing has changed since then in relation to the status of the land or the policies of the Council. The owner has destroyed natural habitat and amenity. The current industrial fencing is an eyesore and the boundary wall has been demolished in part and neglected in the rest.</p> <p>My understanding was the owner had been insructed to restore the boundary wall and to restore the land to its previous condition.</p> <p>This application should be rejected on exactly the same grounds as the previous application and the owner should be made to remove the industrial fencing, restore the dry stone walling and access to the footpath.</p>
