| <p>I would like to give my support to the proposed development of this site. I have lived in the area for 30 years. Being an avid walker and enjoying access to the local countryside with friends, I often pass this site on Cuckstool which currently presents as an eyesore and nothing appears to be moving forward. Previously this area was scrubland and on occasion was unfortunately used for fly-tipping and the disposal of rubbish. Presumably, if this site was given the go ahead there would be some provision and guidance as to how it would be managed. What is being currently offered by the developers in relation to the replacement of bio-diversity (bat boxes, the re-planting of trees and a wild flower meadow) sounds wonderful that would provide a habitat for local wildlife and insects such as bees and an area to be enjoyed by both neighbours and the larger local community.</p> | |
