Having previously resided in close proximity to this land and still walking the area I think that the proposed planning is going to be much more pleasing than what the area currently looks like. Given that the developer/s have committed to providing elements to attract wildlife and wild flower meadows (which would be lovely to look at and for children and adults alike to investigate), I feel that it would enhance and improve the area. I do know previously that people have used the area of land as a dumping site and of course if planning is granted for the 2 properties the much disliked metal fencing will be replaced by a more appealing boundary to the neighbouring properties.
